PRE-CONFERENCE TRAINING COURSES INCLUDING #1 INTEGRATING CLIMATE CHANGE INTO EIA

COURSE DESCRIPTION

Course #1 Integrating Climate Change into Environmental Impact Assessment: Tools and Concepts.

This 1-day course (2 April) will provide participants with the concepts and tools they need to integrate climate change impacts, vulnerabilities, and risks into environmental impact assessments (EIA). It will be divided in four sections. The first one will focus on demystifying the language, elements, and concepts used in climate science. Current Canadian environmental assessment regulations framing the integration of climate change will be reviewed in the second part of the course. The third section will focus on how climate change should be integrated into EIA. The last section will be dedicated to a workshop with real case studies so that participants have the opportunity to apply the concepts and knowledge acquired.

GOALS AND LEARNING OUTCOMES

Participants will leave the course with a basic knowledge of climate change science and concepts, as well as an understanding of the major worldwide climate change trends for the next century. They will also acquire a broad picture of climate change tools (scenarios, maps, data, methodologies, guidelines, etc.) currently available to environmental assessment practitioners and how they may be used in SEA and EIA. They will gain a better understanding of SEA and EIA as effective tools to adapt and enhance resilience to climate change.

FEES

IAIA's courses cost US\$275 for the 1-day courses and US\$475 for the 2-day courses. The course fee includes course materials, light lunches, and coffee breaks. Participants in the training courses who are not registered for the IAIA conference will be assessed an additional US\$75 fee. **Pre-registration and prepayment by 15 March 2017 is required.**

INSTRUCTORS

Isabelle Charron, Climate Scenarios & Services Specialist, Ouranos Inc. (Canada)

Caroline Larrivée, Team Leader, Vulnerabilities/Impacts/Adaptation Group, Ouranos Inc. (Canada)

Why train with IAIA?

IAIA is the International Association for Impact Assessment, organized in 1980 to bring together researchers, practitioners, and users of various types of impact assessment from all parts of the world. IAIA involves people from many disciplines and professions. Our members include corporate planners and managers, public interest advocates, government planners and administrators, private consultants and policy analysts, university and college teachers and their students. IAIA has members from over 120 nations.

For 36 years IAIA has been holding annual conference events and training courses all over the world to promote best practices in impact assessment.

With IAIA training courses, participants will have a chance to connect to a global network of impact assessment practitioners and exchange information and experience with other practitioners from around the world.

Pre-registration and pre-payment by 15 March are required for all training courses.
