

Our mission:

Identify and follow-up social risks to ensure the acceptance of projects

Securing development projects...

- > Ensuring the **retention of the operating licence** over the project's life.
- > Fostering **confidence with impacted populations** at an early stage for a balanced social development.
- > Making stakeholders (Affected populations, civil society, local authorities) adopt a **common development strategy**.
- > **Increasing accountability** through participation, transparency, feedback.
- > Ensuring **compliance with safeguards** and up-to-date standards.

With a reliable toolkit...

- > More than 60 years of experience in **helping local communities**.
- > Facilitating **decision-making**.
- > Ensuring the **project's success** and **longevity** through early planning, shared objectives, **participation** and anticipation.
- > Benefiting from a **permanent presence** on each continent and emphasizing work with trusted counterparts.
- > **Preparing exit strategy** at an early stage anticipating difficulties.

Added-value of Social Imprint® toolkit:

- > A System based on **100 Key Performance Indicators (KPI)** in economic prosperity, quality of life and social cohesion.
- > Focusing on imbalanced dynamics and comparing KPI helps to **identify social risks from the roots**.
- > Implementing an **Early Warning System** focusing on population behaviour and dynamics.
- > Designing **specific Grievance Management and Action Plans (GMAP)**.
- > Helping the project developer to **monitor social and economic impacts** through up-to-date information.
- > Implementing an **Empowerment Plan for Stakeholders (EPS)**.

When to use Social Imprint®?

- > Social Imprint® toolbox can **accompany the project developer** through all different phases of the project from prefeasibility study to closure.

Our approach:
Involvement of the stakeholders at the **centre** of our concerns.
Support **four objectives**:

- Sustainability
- Balance
- Security
- Facilitation
