PRE-CONFERENCE TRAINING COURSES INCLUDING #4 CULTURAL HERITAGE COMPONENT OF IA

COURSE DESCRIPTION

Course #4 Cultural Heritage Component of IA: Methods, Challenges, New Technologies, and Climate Change Issues. This 2-day course (2-3 April) focuses on requirements, methods, techniques, and tools for treating cultural heritage as an integral component of IA and Environmental/Social Management Plans. It will incorporate the importance of integrating cultural heritage within IA to better understand how potential changes in the biophysical environment affect cultural heritage and practices.

GOALS AND LEARNING OUTCOMES

On day one, classroom training covers requirements and procedures for integrating cultural heritage into IA and project plans. Presentations and discussion will include methods and tools that facilitate the identification, documentation, and management of cultural heritage in the development context, with a consideration of the role of climate change. On day two, a field trip to a local archaeological museum/site and to Montréal's historic core provides an opportunity for specific application of the material covered on the previous day. Participants consider a range of challenges and potential actions to ensure the environmental, social, and economic sustainability of Montréal's cultural heritage in the context of development activities.

FEES

IAIA's courses cost US\$475 for the 2-day courses, and US\$275 for the 1-day courses. The course fee includes course materials, light lunches, and coffee breaks. Participants in the training courses who are not registered for the IAIA conference will be assessed an additional US\$75 fee. **Pre-registration and prepayment by 15 March 2017 is required.**

INSTRUCTORS

Arlene Fleming, Cultural Resource and Development Specialist, The World Bank (USA)

Ishanlosen Odiava, Cultural Heritage and Development Specialist and Independent Consultant (Canada)

Christopher Polglase, Cultural Heritage Management Specialist, Gray & Pape, Inc. (USA)

Why train with IAIA?

IAIA is the International Association for Impact Assessment, organized in 1980 to bring together researchers, practitioners, and users of various types of impact assessment from all parts of the world. IAIA involves people from many disciplines and professions. Our members include corporate planners and managers, public interest advocates, government planners and administrators, private consultants and policy analysts, university and college teachers and their students. IAIA has members from over 120 nations.

For 36 years IAIA has been holding annual conference events and training courses all over the world to promote best practices in impact assessment.

With IAIA training courses, participants will have a chance to connect to a global network of impact assessment practitioners and exchange information and experience with other practitioners from around the world.

Pre-registration and pre-payment by 15 March are required for all training courses.
