The greater Mekong region

Net inflows of foreign direct investment in Cambodia (%GDP)

The graph below illustrates foreign direct investment (FDI) net inflows in Cambodia and shows a significant increase from 2.5% in 1994 to 14% in 2020.
How is SEA growth more interesting?
Overview of SEA in Cambodia

- Law on Environmental Protection and Natural Resource Management (1996)
- National Environmental Strategy and Action Plan (2016-2023)
- Sub-Decree No.72 on the EIA Process (1999)
- The draft Environmental and Natural Resources Code
EU-Cambodia program for sustainable and inclusive growth in fisheries

The key priority issues for fisheries and aquaculture retained for this SEA:

- Hydropower and irrigation development
- Poor management of fisheries and livelihoods
- Chemical and pollution
- Deforestation
- Climate change
Asian Development Bank

Year: 2009

Scope: Northeastern and Southern
Let’s continue the conversation!
