- 14. Aramis

Case of Borsele

 Rural area province of Zeeland (South-West Netherlands)

Why Borsele?

How? SEA's spatial planning meet EIA's projects energy

Where integral and coherent consideration meet local and sectoral issues. And spatial planning (SEA's)

Energy projects (EIA's): acceleration meets diligence: how integral must it be?

How? spatial talk tool

Recap

- Challenges
 - Changing scale and politics
 - Financing sectoral, not integral
 - Balancing acceleration vs diligence: How integral must it be?
- Need for:
 - spatial talks: integration of levels (scales)

What about You?!

- > Questions?
- Do you, in your area/metropole/country have spatial challenges?
- And how do you deal with these issues?
